

Priya Nagarajan, MEng , CIH, *Director, Industrial Hygiene and Toxicology Division*

**SANDLER OCCUPATIONAL MEDICINE
ASSOCIATES, INC.**

OVERVIEW

Ms. Priya Nagarajan joined Sandler Occupational Medicine Associates (SOMA) in January 2003 as an Industrial Hygienist and was appointed Director, Industrial Hygiene and Toxicology Division in June 2006 to manage the industrial hygiene projects and programs for SOMA. Ms. Nagarajan is a Certified Industrial Hygienist with over 14 years of experience in recognizing, evaluating and controlling employees' exposures to health hazards at their workplace. She has worked on multiple projects including exposure assessments, indoor air quality projects, exposure modeling projects, developing Safety Data Sheets, hazards management, chemical safety training, quantitative risk assessments and research for various clients including, but not limited to, regulatory agencies, legal firms, commercial and residential facilities, health care facilities, power plants, small and large-scale industries and, mines and quarries.

EDUCATION

- Bachelor of Engineering, Chemical Engineering, Birla Institute of Technology and Science, India
- Master of Engineering, Chemical, The National University of Singapore, Singapore

NOTED ACHIEVEMENTS

Ms. Nagarajan has managed and continues to manage multiple industrial hygiene sampling projects including noise, asbestos, silica, diesel particulate, welding fume and asphalt fume sampling involving over 300 aboveground quarries, underground mines, distribution yards, asphalt plants, cement plants and ready-mix plants. She has been part of the strategy team on numerous projects, developing sampling protocols for the contaminant being analyzed and recommending exposure mitigation techniques, as warranted. Additionally, she has managed the sampling database, conducted extensive data analysis and developed exposure models for multiple clients. Ms. Nagarajan has been involved in conducting safety audits at manufacturing facilities and in developing environmental, health and safety management systems, as required.
